

TCS/ESP pushbutton E256

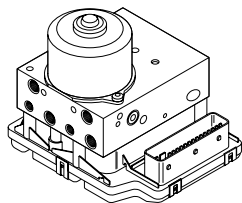

Steering angle sensor G85

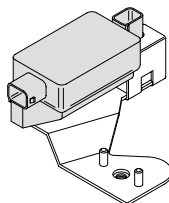

Speed sensors at front and rear wheels G44 ... 47

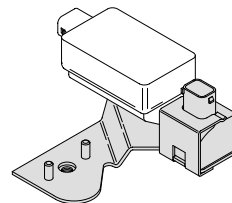

Control unit for ABS with EDL/TCS/ESP J104 with hydraulic unit

Yaw rate sensor G202

Lateral acceleration sensor G200

SP28-13

# System Overview

## CONTINENTAL TEVES

### Sensors

TCS/ESP pushbutton E256  
(in middle of dash panel)

Brake light switch F

ESP brake recognition switch ESP F83  
(in brake servo unit)  
- only in the case of MK 20 -

Wheel speed sensors G44, G45, G46, G47

Steering angle sensor G85  
(on steering column)

Lateral acceleration sensor G200  
(at bearing bracket for steering column)

Brake pressure sensor -1- G201  
(at brake master cylinder)

Brake pressure sensor G202  
(at bearing bracket for steering column)

Brake pressure sensor -2- G214 (at brake  
master cylinder) - only in the case of MK 20 -

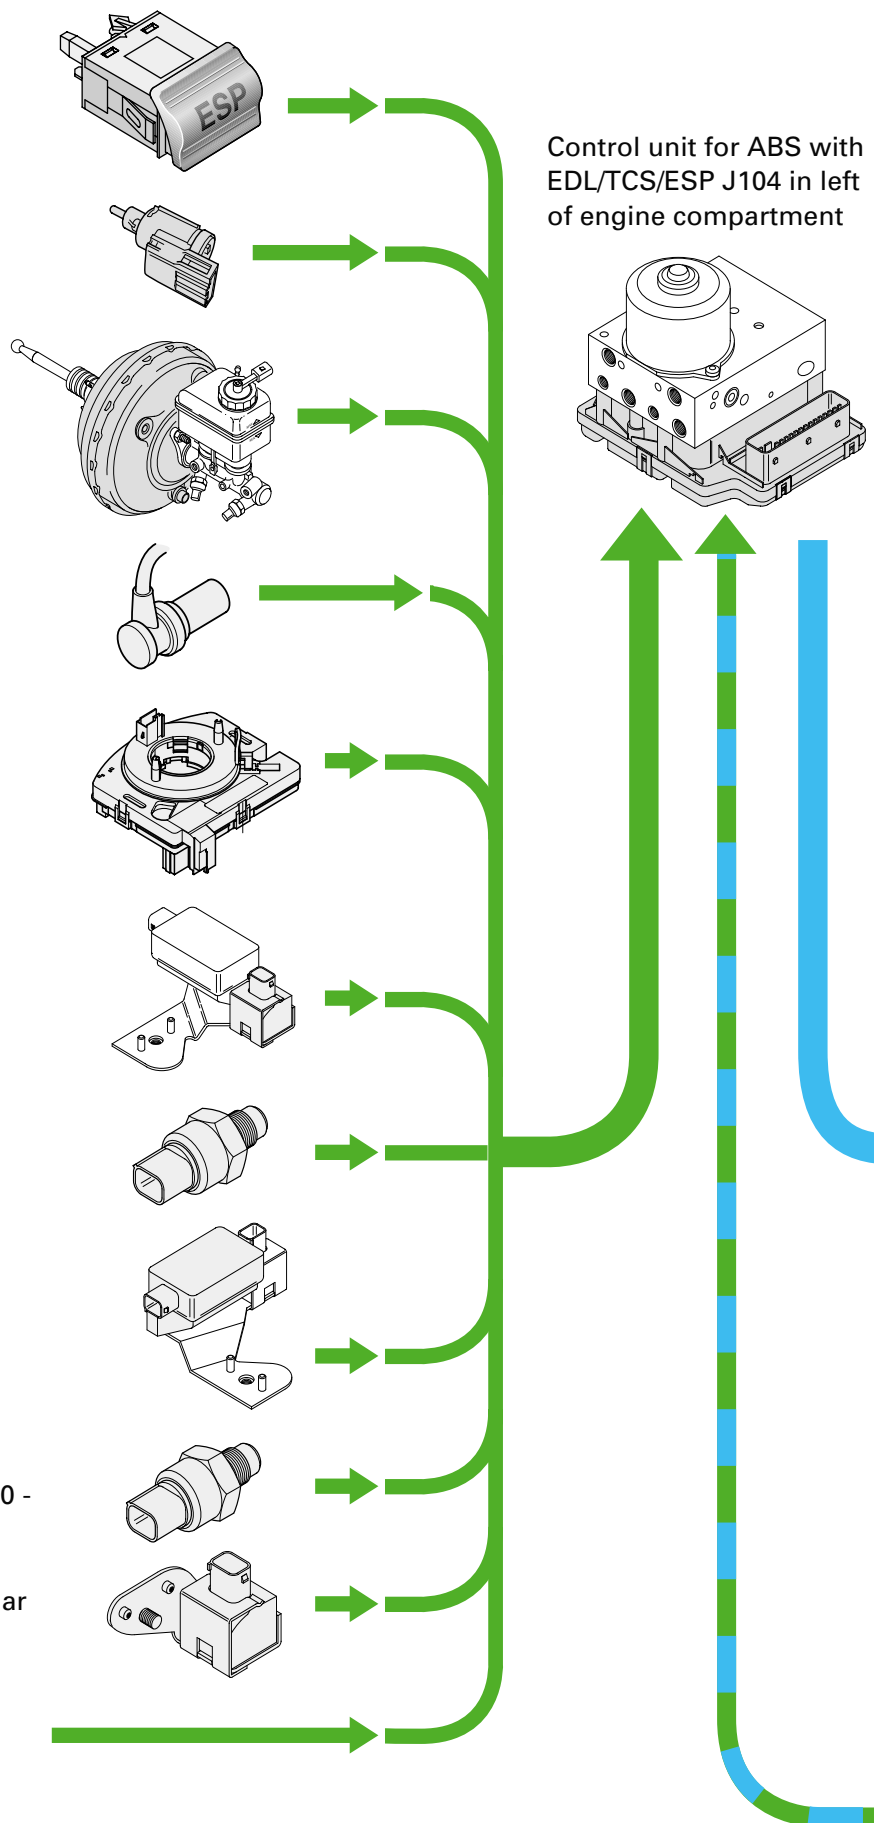

Longitudinal acceleration sensor G251  
at right of central tube, close to right A pillar  
- only 4x4 models-

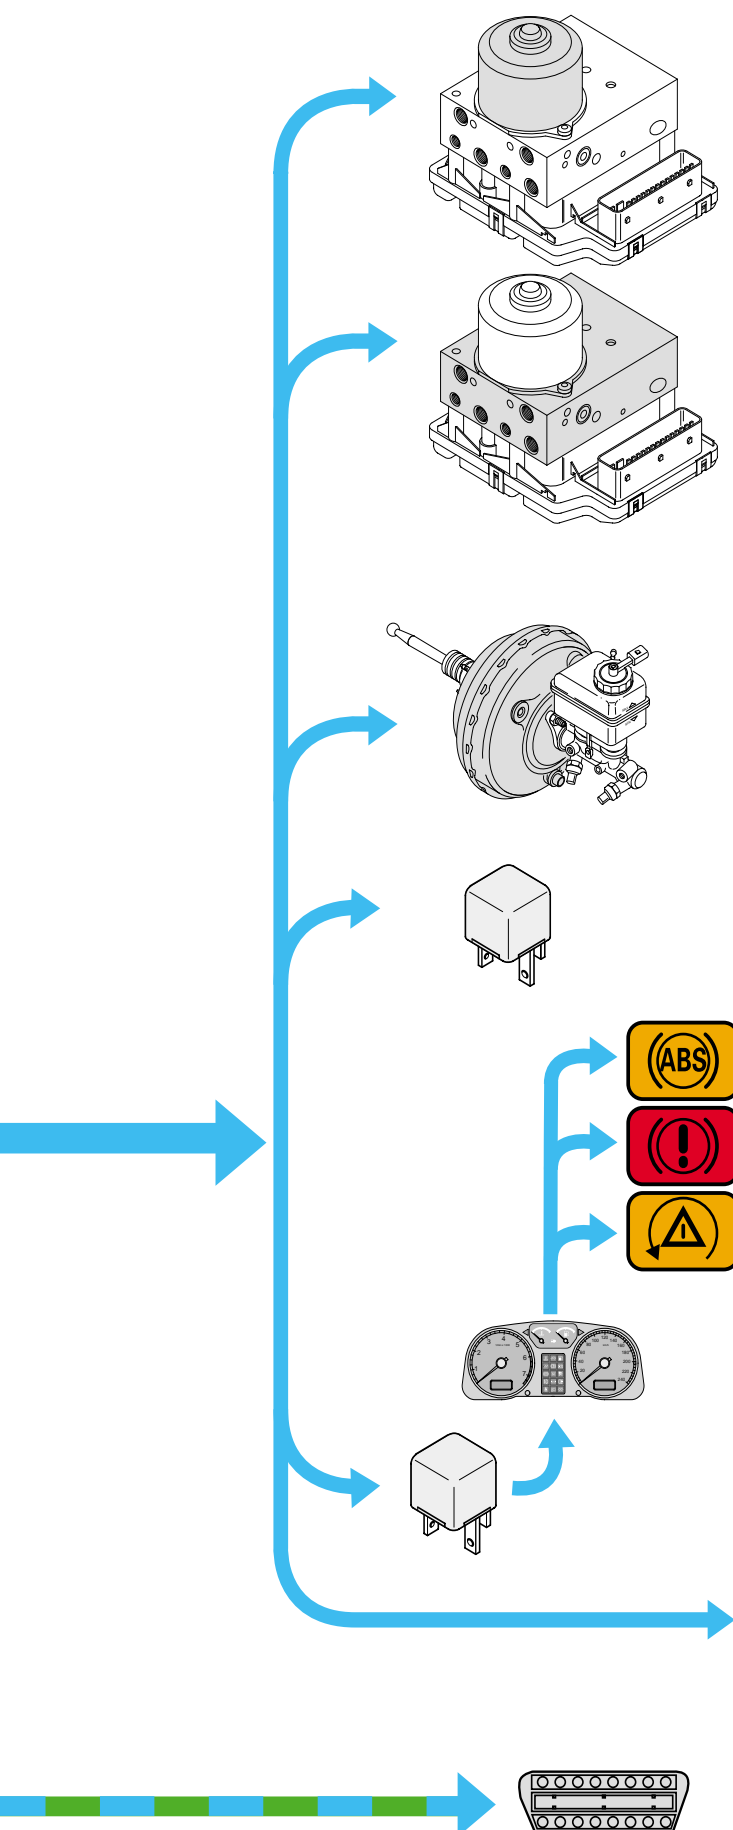

### Additional signals:

Engine management

Gearbox management

Haldex clutch - only in the case of MK 60 -

## Actuators

ABS hydraulic pump V64

ABS inlet valves N99, N101, N133, N134

ABS outlet valves N100, N102, N135, N136

Electronic stability programme switch valve -1- N225

Electronic stability programme switch valve -2- N226

Electronic stability programme high-pressure valve -1- N227

Electronic stability programme high-pressure valve -2- N228

Brake pressure solenoid N247

(in brake servo unit)

- only in the case of MK 20 -

Brake light suppression relay J508

- only in the case of MK 20 -

ABS warning light K47

Handbrake/brake fluid level warning light K14/33

Electronic stability programme warning light K155

Control unit with display in dash panel insert J218

Voltage supply relay J535 for warning light K155

- only in the case of MK 20 -

## Additional signals:

Engine management

Gearbox management

Navigation system management

Diagnostic connection
